Fourth e-Government forum kicks off

E-Kuwait targets top quality e-services: Sheikh Mohammad

By Fares Oweis KUWAIT: The 4th e-Government Forum titled "E-Services: 2020 Vision" opened today at the Arabian Ballroom. Several companies and institutions are participating in the forum and presenting various solutions for ministries and government institutions in order to help achieve the desired government transformation and modernization process by integrating innovative systems. The forum is organized by Naufal Group and sponsored by various institutions.

During his opening speech, Minister of State for Cabinet Affairs and Acting Minister of Justice Sheikh Mohammad Abdullah Al-Mubarak Al-Sabah said that the government datacenters play an important role in keeping pace with latest technology. He added, "We believe that building a modern secure government that in turn helps achieve the ultimate strategic goal represented by e-Government programs, " he said. Sheikh Mohammad underlined the need to separate the information security which has become the head of the list of concerns on the level of information security, noting that it is a top priority to separate the information security from other matters especially due to the developments in this field. He said that the forum will take place under the theme "Towards the Next Generation of Information Security," with the participation of experts in the field of information technology.
