KUWAIT: Eng Qusai Ibrahim Al-Shatti, the Acting General Manager of the Central Agency for Information Technology (CAIT), announced yesterday that he is pleased with the unprecedented participation of many global technology vendors in EGOV4—Al-Shatti commented that introducing EGOV4 is attracting more global technology vendors to Kuwait. "This is due to the benefits from the networking opportunity and the role played by the government as the main beneficiary," he said.

Commenting on the e-Services Excellence Award that CAIT launched, Al-Shatti said, "All terms and conditions related to the new edition of this award have been set and finalised. It starts on Sunday 25th September, 2016, and will continue till the end of the year. The winners will be announced during the opening ceremony of the 4th EGOV Forum. The main interest in the e-Services Excellence Award is to benefit from the momentum that the first EGOV Special edition is available and ready to guide all government departments through the participation process.

Commenting on the accelerated technology trends and innovations, the Acting General Manager of CAIT said, "We, in Kuwait, are destined to pursue the route of technology development that paves the way for sustainable growth of our country. We need to stay in touch with a changing world driven by many technology phenomena such as mobile, cloud computing, big data analytics, and social media. Therefore, in addition to the company’s social responsibility activities, it is compelling all to consider these new technologies and applications’ portfolio. The upshot would be to cover all open doors wide for unaccomplished developments. Our computing platforms, business processes, and administrative systems would have overlapped to stand up to the challenge. And we would provide us with more fruitful insights to explore our options for the future.

Al-Shatti concluded his statement by promising to continue improving the technology services and technology grants during EGOV4 (2016). "We will be providing all our services for the benefit of all government departments, instead of individual vendors. All IT vendors are all invited to make Kuwait a genuine business a government development region and to be selected in the competition. All IT vendors should make a common platform to participate by contacting the CAIT Secretariat on +965 22469921 or visit email info@cait–pic.com.br"
